

REPORT OF FINAL SALE GUIDE

HOW IT WORKS

The Report of Final Sale is known as the RFS throughout the Data Portal. The RFS completes the issuance record for the debt issue and is precedent to all subsequent annual reports. A Report of Final Sale, known as the RFS, may only be created from RPDI^s that have a *Reviewed* status.

SPECIAL NOTE FOR FILERS

Make sure you are choosing the correct **Issuer** from the drop-down list when looking for on-going debt reports. CDIAC has historically created each Community Facilities District (CFD) as a separate **Issuer**. Another example includes Issuer names for certain pooled tax and revenue anticipation note (TRANS) debt that include an acronym in parenthesis to denote the issuing joint powers entity.

A screenshot of a dropdown menu titled "Issuer". The menu contains the following options:

- Select
- Pomodoro CFD No 1999-1
- Pomodoro CFD No 2000-1
- Pomodoro CFD No 2001-1** (highlighted with a yellow arrow)
- Pomodoro CFD No 2022-1
- Pomodoro CFD No 2023-1
- Pomodoro Public Financing Authority

Once created, the RFS will remain in *Draft* status until it is submitted at which time the status will change to *Submitted*.

To view previously created RFS with a status of *Draft* or *Submitted*, use these filter combinations to populate your dashboard.
