# About the California Pollution Control Financing Authority

**Mission Statement:** As public servants, we are committed to promoting broad and equitable access to private capital through the delivery of diverse financing options to California businesses and environmental industries by being:

- A driving force of public and private partnerships that create jobs and support vibrant economic development especially in disadvantaged and underserved communities.
- A leader in offering innovative and prudent financial risk mitigation tools, embracing new financing technologies.
- At the forefront of community-driven projects that restore the environment, protect public health, and promote economic independence and climate resilience; and
- A statewide flag bearer in the issuance of green bonds and new technologies for solid waste, wastewater, recycling, and water furnishing infrastructure.

Founded in 1972, the California Pollution Control Financing Authority (CPCFA) provides California's small and large businesses with access to capital. CPCFA provides these services through various programs meeting a variety of goals, specifically:

- **Conduit Bond Program:** Helping businesses access the capital markets to fund construction of climate related projects that benefit the public such as solid waste, recycling, water, and wastewater projects.
- **California Capital Access Program (CalCAP):** Incentivizing small business lenders to provide loans for business start-up, expansion, and working capital through the CalCAP for Small Business and Collateral Support Programs. In addition, CalCAP collaborates with the California Air Resources Board (CARB) to incentivize small business lenders to finance new, zero emission heavy-duty trucks and buses.
- **California Investment & Innovation Program (Cal IIP):** A grant program creating and fostering an on-going partnership with Community Development Financial Institutions (CDFIs) to assist in efficiently deploying economic resources to California communities in need and establishing an equitable economic recovery; and
- **California Recycle Underutilized Sites Program (CALReUSE):** The ongoing administration of grants used to transform contaminated sites into vibrant housing and infill developments that enhance California communities.

# California Investment & Innovation Program

## PROGRAM SUMMARY

In 2022, the Legislature established Cal IIP with Senate Bill 193 to provide grants to enhance the capacity of Community Development Financial Institutions (CDFIs) providing technical assistance and capital access to economically disadvantaged communities in the state [Health & Safety Code Section 44558.1(a)(1)].

CDFIs are financial institutions that applied for and received federal certification to specialize in serving individuals and communities that are underserved by traditional financial institutions. CDFIs can include banks, credit unions, loan funds, and venture capital funds.

Legislation required CPCFA to develop an application process, criteria to adjust the award size, adopt guidelines for annual reporting, and develop any other rule necessary to implement the program.

The 2022-2023 California State budget included \$50 million to fund the Cal IIP grant program, \$5 million of which is for administrative costs. The remaining \$45 million will be awarded annually in ("up to" depending on applicant specifics) \$15 million increments.

Grants are awarded to applicants that hold the following eligibility characteristics required in Health & Safety Code (HSC) Section 44558(f):

- Current federal CDFI Fund certification
- Five or more loans in the 12 months prior to application
- A minimum net worth of \$25,000
- Already serving California
  - Principal office AND officers domiciled in CA or
  - 25% of the CDFI's loan portfolio provides financial assistance to persons or projects in CA or
  - Provided financial assistance in CA totaling >=\$10M in the three years prior to application

---

## 2024 AWARD SUMMARY

The Cal IIP inaugural grant process began with a November 1, 2023, grant application deadline, grant award recommendations presented to and approval by the CPCFA Board on January 16, 2024, and ended with Cal IIPs formal announcement of awards on February 1, 2024.

A total of up to \$15,000,000 was available for the 2024 Cal IIP grant awards, with the statutory specification that 20% be awarded to CDFIs qualifying as “small and emerging.”<sup>1</sup> Cal IIP received a total of 67 applications and awarded \$14,200,000 to CDFI's focusing on small business, housing, reaching the underbanked, and various other community development projects. The remaining \$800,000 will be rolled over to the February 1, 2025, awards. Exhibit A includes a list of the applicants, award amounts, and proposed grant fund uses (see Attachment A).

As outlined by legislation, Cal IIP bases award amounts on tiers and specified CDFI attributes. Specifically, “small and emerging” CDFIs received \$3,000,000 of the available \$15,000,000, divided equally amongst all applicants meeting that definition. For the 2024 award cycle, five CDFI's met the "small and emerging" definition receiving \$600,000 each. All other applicants were classified as Tier 1, receiving \$100,000 per applicant, or Tiers 2A or 2B, each receiving \$200,000 per applicant.<sup>2</sup> Award amounts are not based on or ranked by eligible uses submitted by the CDFI.

---

<sup>1</sup> Small and emerging applicants must have less than \$10 million in assets as defined in HSC Section 44558(I).

<sup>2</sup> Tier 1 meets minimum eligibility requirements. Tier 2A meets minimum eligibility requirements AND have a minimum of 10 loans in the most recently completed fiscal year. Tier 2B meets minimum eligibility AND have provided financing assistance in the state of California totaling \$10 million or more in the last three fiscal years.

## PROGRAM BENEFITS TO CALIFORNIA

The legislature's intent for the program includes Cal IIP serving as a potential repository for current and future emergency or stimulus funding streams that would otherwise require the state to start up new programs, thereby slowing the delivery of these funds to those most in need [SB 193, Section 1(d)].

The CDFIs scheduled to receive awards serve needs in the areas of childcare, community development, education, housing, non-profit lending, small business, and engaging the underbanked. Highlights include:

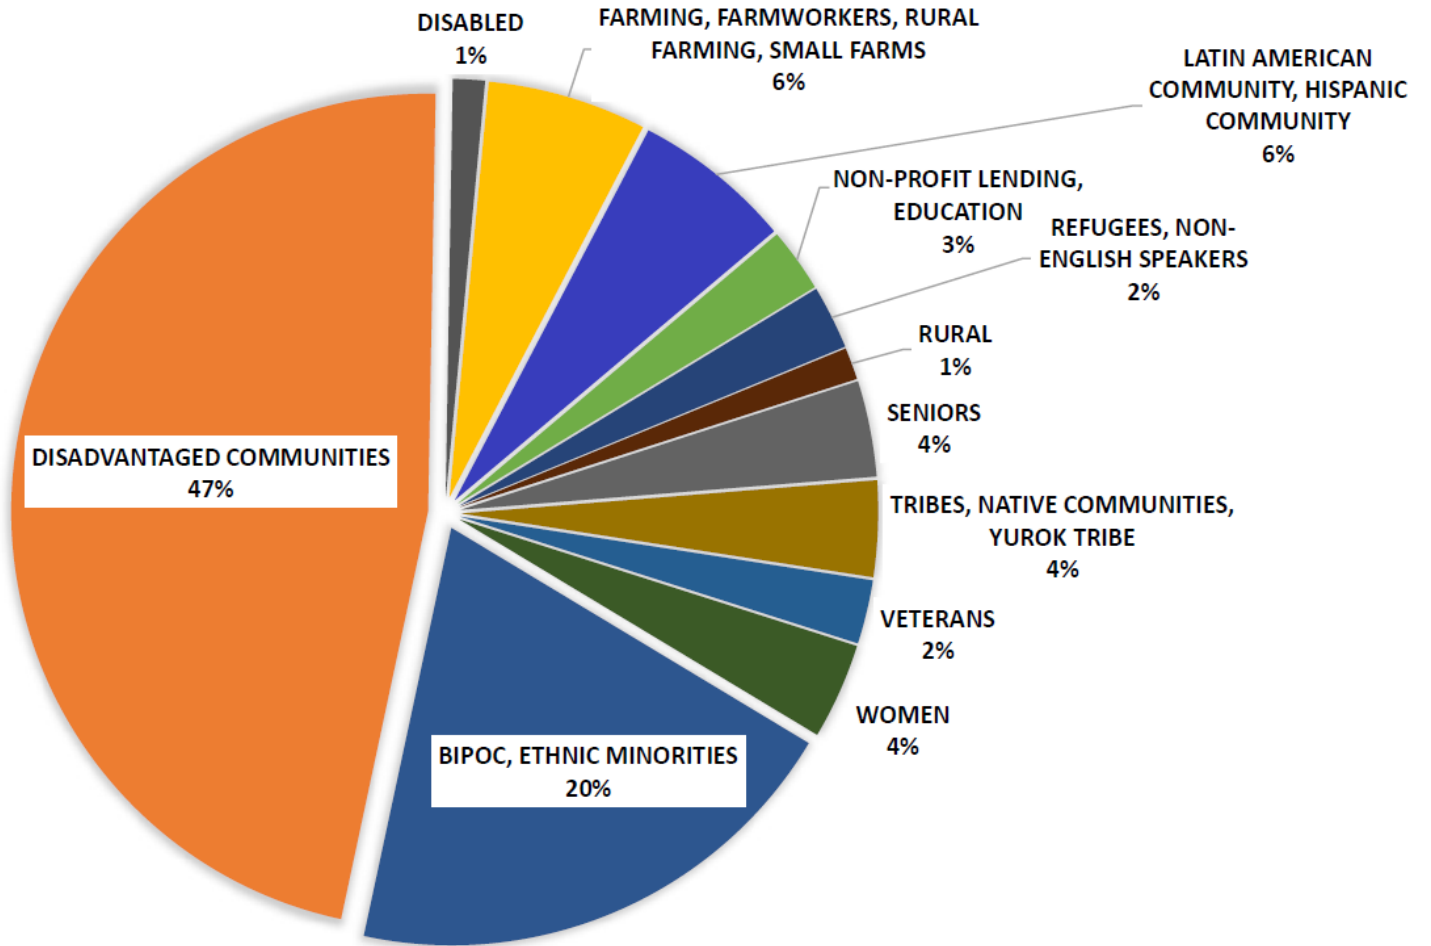

- \$5.5 million to 30 CDFI supporting Small Businesses;
- \$4.4 million to 21 CDFI with affordable housing programs;
- \$3.4 million to 16 CDFI working on engaging the underbanked; and
- \$400 thousand to 2 CDFI using their award for education programs.

\*Please note: each Cal IIP 2024 Awardee may serve more than one Focus Area.

# COMMUNITIES BEING SERVED

The Cal IIP 2024 awardees serve the following communities:

---

## AWARDEE PROJECT HIGHLIGHTS

### **Child Care:**

Low Income Investment Fund (LIIF) is a nonprofit CDFI headquartered in San Francisco and Tier 2A awardee, whose mission states that everyone in the United States should benefit from living in a community of opportunity, equity, and well-being.

LIIF plans to use the award on loans and grants to develop and expand facilities that provide high-quality childcare and early learning services, and loan products to support the development and preservation of affordable housing projects.

### **Education:**

Mocse Credit Union, a Tier 2A awardee, is a credit union located in Modesto, and serves low-to-moderate income individuals in Stanislaus and Merced counties.

Mocse Credit Union plans to use the award to increase their loan loss reserves to continue providing tuition assistance to new students at Western Pacific Truck School. The tuition program parameters include \$1,500 cash up-front from the student and Mocse Credit Union providing students with a \$6,000 unsecured 24-month loan at 15%. Since its inception in 2022, the program has helped 129 students pay for school, graduate, receive certification from the California Department of Motor Vehicles, and find jobs through the Western Pacific Truck School job placement program.

---

## **Community Development:**

Arcata Economic Development Corporation (AEDC) is a nonprofit CDFI and Tier 2A awardee based in Eureka that serves Humboldt, Del Norte, Mendocino, Lake, Trinity, and Siskiyou counties. This area lacks the number of commercial lenders found in more urbanized areas, and AEDC tries to fill the need in these rural counties, including 26 tribal communities.

AEDC plans to use the award to match for their upcoming application to the USDA for a new revolving loan fund in the amount of \$1,000,000, which in turn can be used for the following:

- Promote community development
- Establish a new business
- Establish and support microlending programs
- Create or retain employment opportunities
- To acquire, construct, convert, enlarge or repair a business or business facility, particularly when jobs will be created or retained
- To purchase or develop land (easements, rights of way, buildings, facilities, leases, materials)
- To purchase equipment, machinery or supplies, or make leasehold improvements
- For start-up costs and working capital
- For pollution control and abatement
- For transportation services
- To cover feasibility studies
- Professional fees (i.e.- for architects, lawyers, engineers, accountants, etc.)
- Towards the building of hotels, motels, convention centers
- For educational institutions
- For aquaculture-based rural small business

The remaining funds from the award will be used to increase AEDC's existing revolving loan fund and build up their net assets for future projects.

---

## **Housing:**

Clearinghouse Community Development Financial Institution (CCDFI) is a nonprofit CDFI in Lake Forest and Tier 2B awardee that serves all counties in the state. CCDFI provides funding for a diverse range of projects, including healthcare clinics, charter schools, affordable housing, homeless housing, and assisted living facilities.

CCDFI plans to use their award on affordable housing financing, which includes new development, rehabilitation, preservation of affordable multi-family housing units, and housing projects that assist vulnerable homeless populations.

## **Nonprofit Lending/Technical Assistance:**

American Nonprofits, a Small & Emerging awardee, is a micro-business lender and nonprofit CDFI located in Santa Cruz that serves Marin, Sonoma, Napa, Solano, San Francisco, San Mateo, Contra Costa, Alameda, and Santa Clara counties. American Nonprofits brings financial resources to the nonprofit sector in a sustainable and impactful way by supporting nonprofits that are typically left out of the standard financial services market - mostly BIPOC-led nonprofits with revenues of less than \$3,000,000. American Nonprofits believes these organizations hold community answers, but are often left out of the funding discussions.

---

American plans to use the award to provide direct support for underwriting costs. American caps underwriting costs at \$5,000 or less, keeping in line with loan sizes of \$75,000 or less. In addition, American will use the grant to provide free financial technical assistance to its current and potential borrowers. This technical assistance meets community needs and values. The technical assistance includes aiding in the development of cash flow projections and tying financial projections to strategic plans.

**Small Business:**

Inclusive Action for the City (IAC) is a nonprofit CDFI and Tier 2A awardee located in and serving Los Angeles County. IAC's mission is to serve underinvested communities and build thriving local economies by improving access to transformative capital and advancing policy through collaborative research and community-driven advocacy.

IAC's main priority with the award is to boost its annual lending by increasing their lending volume by a minimum of 10-15%. IAC also plans to expand its micro-equity investments, which offer entrepreneurs the time and resources to scale their enterprises successfully. IAC will also use the award to provide tailored technical assistance and business coaching to clients, including support in accounting, marketing, business planning, and other skill-building activities.

# AWARDEE AVAILABILITY BY COUNTY

\*Please note: each Cal IIP 2024 Awardee may serve more than one county.

---

# AWARDEE ANNUAL REPORTING AND TRANSPARENCY

## Annual Reporting

Legislation required CPCFA to develop and adopt guidelines for annual reporting (HSC Section 44558.5). Each awardee is required to provide an annual status report to CPCFA no later than 180 days after the end of the fiscal year following the receipt of funds.

The annual report requires the awardee to provide a description of the activities completed with grant funds during the reporting period, the amount of grant funds expended, and a copy of their current annual financial statement (CCR., Section 8147).

## Records Retention

Each awardee is required to retain all program and financial data necessary to substantiate the purposes for which the grant funds were spent for a period of 3 years after the end of the grant term. This ensures the necessary information is documented and retained by each grantee for the any future audits. This requirement helps CPCFA enforce the program regulations, conduct audits, and prevent diversion and other fraudulent activity.

Grantees must provide supporting documentation (e.g., progress reports, project work plan, Program budget, receipts, etc.) to CPCFA upon request. This is necessary to ensure fiscal accountability and guard against diversion of funds or other activities outside the objectives of Cal IIP (CCR., Section 8148).
