2000 SUMMARY OF CALIFORNIA PUBLIC DEBT ISSUANCE

This summary provides information on the major components of debt issued by public agencies in California for 2000. The total dollar volume reported for the year amounts to slightly over \$30 billion. This total involves many facets—it includes both long-term and short-term debt, tax-exempt and taxable debt, as well as debt issued for the purpose of refunding existing indebtedness. Its value for financing professionals and policymakers, though, lies in the make-up of the numbers—who issues the debt, how is the debt issued, and what is the debt for? The following summary tables present an informative look at the debt and answer the previous questions.

Debt issuance in California is governed by a number of factors—the economy, public need, and the availability of funds. In 2000 many of these factors were positive. The overall economy of California and the nation continued to grow, and interest rates remained low for the fourth consecutive year. These positive scenarios enabled both local and state agencies the opportunity to address pent-up demand for new projects and repair of infrastructure. In addition, it provided a chance for agencies to save money by refunding prior debt that had a high interest coupon rate for that with lower coupon rates. The tables include information on both state and local agencies, and for individual jurisdictions. The summary tables are compiled by data totals that are typically requested from the Commission.

To obtain more detailed analyses, readers may contact CDIAC for a staff query or request the 2000 *Data on Disk*, a complete data set for the year is available either on diskette or through

e-mail. This ASCII data file may also be downloaded from CDIAC's website (www.treasurer.ca.gov/cdiac/cdiac.htm).

The following tables include the dollar volume for all of the taxable and tax-exempt, long-term and short-term, and refunded debt collected, unless otherwise noted. A brief synopsis of each table follows.

Overview Tables

Debt information by all the types of agencies is included in the three overview tables. They are:

- *Type of Issuer*. This table shows the total dollar volume and number of issues sold by agencies in California that issue debt. It includes both long-term and short-term debt and compares the percentage of each type of agencies' debt to the total amount of debt issued for the year.
- *Type of Issuer by Types of Debt*. This table aggregates agencies' debt by the type of instrument used to sell the debt. It shows the total volume for notes, general obligation bonds, various categories of revenue bonds, tax allocation bonds, and certificates of participation.

- *Type of Issuer by Purposes of Financings.* This table show major categories reported by total dollar volume for interim financing, education, housing, commercial and industrial development, hospitals and health care, capital improvements and public works (the majority of this category shows the use for infrastructure), redevelopment and other purposes.
- *The Taxable Table and Refunding Table.* The next two tables list individual debt issues that are state or federally taxable and those that have been sold to refund part or all of a prior debt issue.
 - *Taxable Table.* This table lists each bond issue that has been identified as either federally or state taxable. The issues are sorted by state, local agencies with the county of the jurisdiction and the name of the agency, and student loan corporation. The type and purpose of each issue is identified, as well as its taxable status.
 - *Refunding Table.* This table lists only the state and local agency issues where some portion of the principal amount is devoted to the repayment of prior debt. In some cases, the total amount is refunded; in others, the issue also contains new money debt.

State Summary Tables

The next group of tables summarizes debt issuance for the State of California and its agencies.

- *Overview of State Issuers.* This table summarizes all of the debt issued by the State of California, its agencies and departments. It presents the total dollar volume by state agency, commission or department, the number of issues sold, the percentage of the total state issuance and, the total (if any) for refunding prior debt.

- *State Issuer by Type of Debt.* Information on the various debt instruments sold by the State of California and its agencies is contained in this table. This table identifies the number and dollar volume of notes, general obligation and revenue bonds sold in 2000.
- *State Issuer by Purpose of Debt.* The final summary table of State issuance aggregates the total dollar volume and number of issues categorized by the purpose for which the debt was sold. State funding for infrastructure projects is detailed in the capital improvements and public works category.

Local Agency Summary Tables

The next five tables contain the summaries for local agencies. Each table is organized by county and then jurisdiction within the county. Local agencies whose boundaries span several counties, i.e., statewide financing authorities, joint union school districts, etc., are placed at the end of each section under *Multiple Counties*.

The first three tables contain debt information on all issues sold by local agencies. Selected information from the local debt data is excerpted for two tables—the *Mello-Roos Table* and the *Capital Improvements and Public Works Table*.

- *Local Agency Overview of Debt.* This table contains the aggregate dollar amount and number of issues for all local agencies issuing debt in 2000. The table presents the agency totals, the percentage of the total dollar volume of local debt, the amount refunded and the percent of each agency's debt that is refunded.
- *Local Agency Issuer by Type of Debt.* This table lists each agency and the make-up of their debt issuance by type of debt instrument for the year. The debt is categorized by

notes, general obligation bonds, various types of revenue bonds, tax allocation bonds, certificates of participation and other types of debt.

- *Local Agency Issuer by Purpose of Debt.* Data in this table profiles the purposes for which agencies issue debt. These categories include interim financing, education, housing, commercial and industrial development, hospitals and health care and redevelopment. The table also summarizes capital improvements and public works issuances that are for infrastructure projects.
- *Local Agency Funding for Capital Improvements and Public Works.* This table refines the capital improvements and public works category presented in the prior table. Information in this table contains the totals for local agency issuance for airports, prisons, water or wastewater, or transportation-related projects, etc.
- *Local Agency Land-Based.* This table reflects an ongoing interest in the use of special assessment and Mello-Roos Community Facilities Districts bonds. These methods of financing have been used extensively in California and have provided two avenues for local agencies to use to build needed local infrastructure and educational facilities. The data in this table are selected from the local issuance information and show the total dollar amount sold, the amount refunded (if any), and the type and purpose for which the debt was issued.

Other Summary Tables

- *The Summary of Student Loan Corporation Debt Financings.* This table contains the principal dollar amount sold, any refunded amount, the type of debt and purpose by student loan corporations for 2000.

- *2000 Types and Refunding, 2000 Purposes and Refunding, 2000 Debt by County of Origin and Refunding.* These three tables present the grand totals for 2000 by debt, purpose and county categories. Each table presents the information by state, local agency and student loan corporation. These tables aggregate the details contained in the *Summary Tables*. The tables note the number of issues, the dollar volume and percentage of the total volume, as well as refunding amounts and percentage of the principal amount sold.
- The *Type* and *Purpose* tables are available on the CDIAC website for the prior year and are updated monthly as CDIAC receives reports of debt issuance for the current year.

Authority for Collection of Information

The debt issuance information contained in this document was furnished to the California Debt and Investment Advisory Commission under the provisions of Section 8855 (g) of the California Government Code. Data includes information for issues sold from January 1 through December 31, 2000, and reported to the Commission by February 15, 2001, by state, local agencies and student loan corporations. The data is not audited by the Commission.

Debt information gathered throughout the year is available in several formats. This publication is a companion to:

- *2000 Calendar of Debt Issuance.* This is a compilation of each debt issue reported sold in 2000. It is organized by county and issuer and presents the year's history of each agency's debt issuance. It is a printed record of the detail for the *2000 SUMMARY*.

- *2000 Annual Report.* The *Annual Report* presents a review of the Commission's activities and accomplishments in 2000.
- *2000 Data on Disk:* This is a complete data set for the year. This ASCII file may be downloaded from CDIAC's website or is available either on diskette or through e-mail upon request.

REFERENCE NOTES

1. Totals include long-term debt, short-term debt, taxable debt, and debt issued to refund existing indebtedness. Amounts are reported to the California Debt and Investment Advisory Commission under Section 8855(g) of the Government Code. Figures may not add due to rounding. All percentage comparisons in the report are based on the actual figures, not the rounded versions thereof.
2. The type of issuer was determined through a review of the official statement for the financing, publications made available by the State Controller's office, and/or other sources.
3. Total debt issuance for 2000 was \$30,385,375,325. This is the figure used to calculate percentages of total debt issuance. Amounts are rounded to two digits, and therefore may not add to the total due to rounding.
4. Includes the Los Angeles Department of Water and Power, airport commissions, parking authorities, TRANS pools, as well as certain assessment and improvement districts.
5. Includes districts created under the provisions of the Mello-Roos Community Facilities District Act of 1982, as amended.
6. Refunding amounts are taken from reports filed with the California Debt and Investment Advisory Commission, official statements for issues, and other available information.
