Section 10154. Financial Soundness Review and Determination.

- (a) A financially sound charter school shall have been a financially capable concern for at least 24 months prior to submission of the application. In addition, a financially sound charter school shall have at least two academic years of instructional operations of a charter school prior to submission of the application.
- (b) Where the application is for new construction or rehabilitation for a charter school with less than two years of instructional experience, the

- organization that is applying on behalf of the school shall demonstrate it has an approved charter or charter amendment for the new charter school at the time of submission and that it has operated or managed another charter school or charter schools for at least two full academic years of instructional operations of a charter school prior to submission of the application. Management expertise must be established by demonstrating, to the Authority's satisfaction, that key personnel (e.g., Chief Executive Officer, President, Operations Manager, Chief Financial Officer, Principal, etc.) involved in operating the applicant charter school have at least two academic years of experience in management positions at other charter schools in California. To establish the required level of management experience, the applicant must provide:

 - (2) Titles, responsibilities and duties of the key personnel at the charter school(s);
 - (3) Length of tenure of the key personnel at the charter school(s);

- (d) The Authority shall review and evaluate Form CSFA 03-01, revised 3/04, and supporting information that is requested or otherwise received by the Authority for purposes of determining whether an applicant is financially sound. In making this determination, the Authority will utilize the apportionment eligibility amounts provided by the Board and will rely on such amounts as being sufficient to complete the project, without verification by the Authority. The Authority shall consider certain factors, including but not limited to:
- (1) Whether the charter school has complied with the terms of its charter agreement;
 - (2) Whether the charter school is in good standing with its chartering authority;

- (3) Whether the charter school is in imminent danger of having its charter revoked or not renewed;
 - (4) Whether the applicant's audited financial statements are free of material exceptions and "going concern" issues;
 - (5) Whether financial results and projections demonstrate the applicant's ability to operate at least on a break-even basis, historically, as well as in the future, taking into consideration the increased obligations resulting from the applicant's participation in the Program. The Authority will evaluate the reasonableness of projected financial performance and corresponding assumptions based on current and historical performance and the charter school's business and/or strategic plans. The Authority will consider current and historical performance, including cash flow, major revenues, degree of reliance on grants and fundraising, enrollment trends, student performance data, projected average daily attendance, expenses, and debt service coverage, if applicable;
 - (6) Whether the applicant has the ability to make its proposed lump-sum payment, if applicable;
 - (7) Whether the applicant's financial condition is consistent with its planned contributions to the project;

The Authority may allow an applicant to subordinate specific oversight fees to a chartering authority or educational management organization where such subordination allows an applicant to meet the minimum debt service coverage requirement. In addition, the Authority may allow applicants to use restricted fund reserves or other funding sources to achieve the minimum debt service coverage ratio;
 - (9) Whether the charter school consistently meets recognized academic achievement standards;
 - (10) Whether the charter school has sufficient qualified management and staff to perform necessary administrative, curricular, financial and human resource functions;
 - (11) Whether the applicant is free of any material risks that would threaten the financial or operational viability of the applicant or the charter school;
 - (12) Where the charter school has contracted with an organization to provide educational management services, the Authority will perform an analysis of the current and historical financial and operational condition of the organization.
- (e) The Authority will perform a site visit of the charter school facility currently used by any applicant that is located outside of the school district that chartered it. Such visit shall be during hours when pupils are present and

- instruction is being provided. The Authority reserves the right to perform such a visit of any other applicant.
- (f) Where a charter school is using a guarantor or co-borrower, the Authority will evaluate the financial resources, stability, and authority of the guarantor or co-borrower, and the extent to which the applicant is reliant on the guarantor or co-borrower to meet minimal debt service coverage ratios for the purpose of determining financial soundness.
 - (g) The Authority also may consider any information voluntarily submitted by the chartering authority, the school district in which the charter school will be located, the county office of education for the county in which the charter facility will be located, and any school district or county office of education whose students currently or are projected to attend the charter school.
 - (h) The Authority will provide the Board with an initial determination of whether an applicant is financially sound for the purposes of the Board establishing the Preliminary Apportionment.
 - (i) For purposes of Advance or Final Apportionment, the Authority shall conduct reviews of an applicant's updated information and provide the Board with updated determinations of whether an applicant has maintained its financial soundness.
 - (j) The Authority's determination of financial soundness shall be valid for a period of six months for purposes of the Board's approval of an application for Preliminary and Advance Apportionment, or for Final Apportionment, which shall satisfy the Board's requirement of current financial soundness certification set forth in California Code of Regulations, title 2, section 1859.167.
 - (k) As a condition for the Authority's determination of financial soundness, the Authority may require the applicant to agree to specific contingencies.
 - (l) As a condition for the Authority's determination of financial soundness, the intercept method may be required for payment of the local matching share pursuant to Education Code section 17199.4(a)(4).
 - (m) Prior to the Board's Final Apportionment, the Authority will provide the Board with a final determination of whether the charter school is financially sound. The Authority reserves the right to withdraw its initial determination that a charter school is financially sound prior to the Final Apportionment by the Board if any material change to the charter school occurs, or an identified area of concern has not been remedied between the Preliminary and Final Apportionment which, in the opinion of the Authority, makes the charter school no longer financially sound.
