Project: Purchase and renovate a facility to develop a dental clinic with eight new dental operatories and two surgical suites.									
Summary of Project:									
<p>Luciane Queiroz DDS, Inc. (Grantee) plans to purchase and renovate a facility to develop a dental clinic with eight new dental operatories and two surgical suites in Kern County that will provide dental services for special health care needs patients who have disabilities that prevent them from receiving routine or specialty care due to their physical, developmental, or cognitive condition. The new clinic will serve as the sole dental provider treating adult patients with special health care needs in the community, increasing access to care for underserved populations. The Grantee anticipates the new dental clinic will serve approximately 1,157 special health care needs patients annually. Upon completion of the project, special health care needs patients will constitute 50 percent or more of the total number of patient visits of those receiving dental services in the operatories and surgical suites paid for with grant funds. Grant funds will be used for the purchase of real property, renovation expenses, and the purchase of equipment and furnishings. Additional leveraged funding will be used to cover expenses that exceed the grant award amount. Staff evaluated the plan and has determined that the project is likely to be feasible and sustainable.</p>
