<b>Project:</b>	Renovate a facility to develop a new ambulatory surgical center with eight new dental operatories								
<b>Summary of Project:</b>	<p>Elmer Hilo II DMD Inc. (Grantee) plans to renovate a facility to develop a new ambulatory surgical center with eight new dental operatories in Los Angeles County that will provide dental services for special health care needs patients, including children and adults, who have disabilities that prevent them from receiving routine or specialty care due to their physical, developmental, or cognitive condition. The design of the new ambulatory surgical center will accommodate patients with limited ambulation, heightened sensory issues, and overweight patients, ultimately expediting access to care, especially for “immediate/urgent” cases or patients that exhibit severe oral pain. The Grantee anticipates it will serve approximately 4,989 special health care needs patients annually. Upon completion of the project, special health care needs patients will constitute 50 percent or more of the total number of patient visits of those receiving dental services in the project paid for with grant funds. Grant funds will be used for renovation expenses, and the purchase of equipment and furnishings. Additional leveraged funding will be used to cover expenses that exceed the grant award amount. Staff evaluated the plan and has determined that the project is likely to be feasible and sustainable.</p>
