1. Introduction

The California Pollution Control Financing Authority, commonly known as CPCFA, administers the California Capital Access Program (CalCAP) which provide participating financial institutions (PFIs) up to 100% coverage on certain loan defaults. By participating in one or more CalCAP programs, financial institutions have available to them a proven financing mechanism to meet the financing needs of California's small businesses.

This Manual for the CalCAP ZETBIF Program (California Capital Access Program Zero Emission Truck, Bus, and Infrastructure Finance Program), funded by independent contributor Southern California Edison Company (SCE), provides instructions, examples, and parameters for enrolling loans and filing claims. Participating financial institutions (PFIs) are encouraged to use this manual as a guide. PFIs may submit pre-qualifications if unsure whether particular loans are eligible and compliant; however, this is optional. For the most current version of the manual, forms, and rules and regulations, PFIs may visit the CalCAP ZETBIF website at <https://www.treasurer.ca.gov/cpcfafa/calcap/zetbif/tools.asp>.

CalCAP Contact Information:

When a financial institution enrolls as a participating financial institution (PFI), they are assigned an analyst to whom they can direct questions. However, PFIs can also use the contact information below. It is the responsibility of PFIs to ensure that CalCAP is kept informed of changes to their organization's contact information.

2. Background

On April 16, 2024, the CPCFA Board approved a [Contract Agreement with the Southern California Edison Company \(SCE\)](#) for the pilot Zero Emission Truck, Bus, and Infrastructure Finance (ZETBIF) Program to be administered by the California Pollution Control Financing Authority (CPCFA) utilizing the California Capital Access Program (CalCAP) loan loss reserve mechanism.

In support of California's climate change policy goals, SCE has agreed to commit funding to CalCAP in order to help businesses acquire electric vehicles and charging equipment. Funding for the ZETBIF Program was generated by SCE's Low Carbon Fuel Standard (LCFS) Credit proceeds. The Low Carbon Fuel Standard is a California Air Resources Board (CARB) Program designed to encourage the use of cleaner low-carbon transportation fuels in California, the production of those fuels, reduce Greenhouse Gas (GHG) emissions and decrease petroleum dependence in the transportation sector. LCFS allows entities to generate credits by fueling electric vehicles, they may then sell the credits to other entities that need to reduce their GHG footprint. Entities that generate LCFS credits using electricity pathways, such as public utilities, are required to use the proceeds from those LCFS credits to benefit their customers and EV drivers, and to promote transportation electrification in California.

Legislation [AB 32](#) directed CARB to develop a [Scoping Plan](#) to reduce GHG emissions that cause climate change. Under the AB 32 Scoping Plan, CARB identified LCFS as a key program to cut GHG emissions and smog-forming and toxic air pollutants by improving vehicle technology, reducing fuel consumption, and increasing transportation mobility options.

To meet the spending requirements for the LCFS credit proceeds, SCE has provided CPCFA with an initial funding amount of \$20,000,000.00 to provide risk management support to financial institutions when they make loans to SCE customers to purchase and lease zero-emission battery electric medium-, and heavy-duty vehicles, retrofits/repowers, and the supporting infrastructure. This incentivizes financial

institutions to make loans to businesses which otherwise may not have access to capital to purchase such vehicles.

The PFI must abide by their standard collection practices both before and after a claim is filed with CalCAP. If the PFI receives any recovery after a claim is filed with CalCAP, the PFI must report each recovery on the PFI's Quarterly Report and must reimburse the loan loss reserve account on a dollar-for-dollar basis.

The PFI is required to submit the claim packet to CalCAP within 120 days of the charge off. The claim packet must include the following:

An approved claim is reimbursed from the funds available in the loan loss reserve account assigned to the PFI for the program in which the charged off loan is enrolled, whether the loan loss reserve account is held at the CalCAP Trustee Bank or the PFI.

14. Reporting Requirements

CalCAP Regulations require participating financial institutions (PFIs) to report to CalCAP on the status of loans enrolled in the Program on a regular basis. In addition, PFIs should communicate to CalCAP any changes to the PFI's contact information to ensure important communications from CalCAP are received by the appropriate point of contact.

Monthly Reporting

Each PFI with a PFI-held (internally held) loan loss reserve account is required to **submit a monthly account statement to CalCAP by the 15th of the following month** (e.g. the statement for January must be submitted by February 15th) by email at CalCAP@treasurer.ca.gov.

CalCAP Regulation §8073 (b) states:

“For each Loss Reserve Account held by a Participating Financial Institution, the Participation Financial Institution shall submit to the Authority a monthly statement of the account activities and balance, no later than the 15th of the following month.”

If the monthly account statement is not submitted, no deposits from CalCAP will be made to the loan loss reserve account pursuant to CalCAP Regulation §8078.25 (c)(3).

The account statement must provide a detailed description of the account and a complete summary of all transactions for the period covered.

Quarterly Reporting

Each PFI is required to submit Quarterly Reports to CalCAP, pursuant to CalCAP Regulation §8073 (f), **by the 15th of the month following the end of the quarter**, by email at CalCAP@treasurer.ca.gov as follows:

Quarter Begins	Quarter Ends	Quarterly Report due to CalCAP
January 1	March 31	April 15
April 1	June 30	July 15
July 1	September 30	October 15
October 1	December 31	January 15

Noncompliance with the quarterly reporting requirement, can result in suspension from the Program, mandatory transfer of loss reserve accounts to the CalCAP Trustee Bank, and/ or termination from Program.

Please note that CalCAP will suspend enrollments of loans upon written notice to the PFI at least ten (10) business days prior to the effective date of the suspension. If the violations are not corrected within thirty (30) business days from the effective date of the suspension the PFI may be terminated from the program. In the event of termination from the program, the PFI cannot enroll any further loans, but all previously enrolled and still eligible loans will be covered by the loss reserve account until they are paid off, claims are filed, or the PFI withdraws from the Program.

The Quarterly Reports shall be submitted using the excel template located here: <http://www.treasurer.ca.gov/cpcfca/calcap/template.xls>.

The Quarterly Report should clearly identify the CalCAP loan number, lender loan number, borrower's name and/or DBA, date of the loan (first disbursement), maturity date, total loan amount, total enrolled amount outstanding, and date the loan was paid off.

If a loan enrolled in CalCAP by the PFI was assigned, transferred, or pledged to another entity, the PFI which originally held the debt must record the date the loan was sold, the name of the entity to which the loan was assigned, transferred, or pledged, and the percentage of the loan which was assigned, transferred, or pledged. The Quarterly Report must indicate if the loan was transferred to another PFI pursuant to prior authorization by CPCFA, or if it was transferred to an entity which is not a PFI. If the

PFI did not receive pre-approval for a transfer or if a transfer was made to a financial institution not approved to be a CalCAP PFI, The loan enrollment is no longer deemed a Qualified Loan or covered by the Loss Reserve Account.

For loans that received a claim approval, the report should also include the date of charge off, claim amount paid, recovery dates, recovery amounts, and a short-written synopsis of the loan history (including the last payment date, when and why the loan charged off, any liquidation efforts (dates and amounts) and future collections efforts).
