

MARKED BY COVID

LESSONS FROM THE COVID WAR

AN INVESTIGATIVE REPORT

THE COVID
CRISIS GROUP

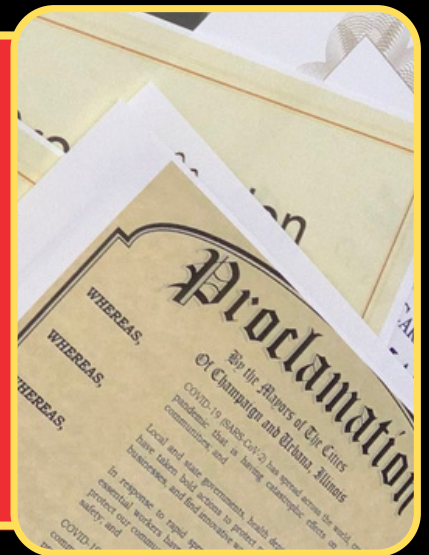

Written by former 911 Commission Director Philip Zelikow's Covid Crisis team, including Marked By Covid, **LESSONS FROM THE COVID WAR** is a non-partisan look at the nation's pandemic response.

Instead of punting blame back-and-forth across the aisle in an effort to gloss over this tragedy, LESSONS offers readers a pathway to common ground and reunification.

Since 2020, Marked By Covid has led coordinated efforts to recognize **COVID MEMORIAL DAY** on the first Monday in March, in perpetuity. Over 170 cities and nine states have enacted Covid Memorial Day resolutions,

In March 2023, H.Res.196 and S.Res.94 were reintroduced with bipartisan backing. The resolution language has been cleared by Senate HELP committee Majority and Minority members and has growing bipartisan support in the House..

Marked By Covid's **NATIONAL COVID MEMORIAL** is a moving collection of photos and remembrances of those lost to Covid – chronicled by the people who loved them.

Powered by Snapchat's interactive augmented reality (AR) technology, the Memorial provides a unifying glimpse into the pandemic's far-reaching costs to support the nation on our road to recovery.

MARKED BY COVID

MARKED BY COVID is the pandemic justice and remembrance movement led by Covid griever. We're memorializing those lost to the pandemic, documenting the preventable suffering caused by the U.S.' pandemic response, and building the power of frontline communities.

KRISTIN URQUIZA, MPA is the nation's top disaster equity advocate, with expertise in race, economic, environmental, and health policy. An experienced grassroots organizer, Urquiza co-founded Marked By Covid days after the death of her father Mark Urquiza to Covid in June 2020.

NPR:

As U.S. COVID deaths near 1 million, advocates press for a memorial day

"We haven't faced death at this magnitude in our country in a long period of time" said AZ Rep. Greg Stanton, lead sponsor of the House resolution."

Washington Post:

Lawmakers push pandemic probe modeled on 9/11 Commission

"Marked By Covid...has spent nearly two years calling for an independent probe into the U.S. response that focuses on 'lessons learned' and avoids finger-pointing, said Kristin Urquiza."

Forbes:

Inside The Movement To Build A National Covid Memorial

"If we push this tragedy into the memory hole we are doomed to repeat the same mistakes again. I'm worried not just about a future pandemic. I'm worried about our preparedness for future public health crises, like climate change," Urquiza said."

Learn how Covid Memorial Day can heal the nation.
